HARROLD'S PANSY GARDENS & GREENHOUSES

P. O. BOX 29 — GRANTS PASS, OREGON.

It is the purpose of this folder to inform our friends and patrons as to the Seeds, Plants and Bulbs that are seasonable and available at this time. This does not mean that these items are the extent of our stock, but rather they are those most likely to be of interest at this time. The prices quoted herein of course supersede previous quotations on these items. For a more complete listing of our stock as well as terms of sale, see our last general catalogue. Copy gladly supplied free.

Harrold's Pedigreed Pansy Plants

Each year we grow and ship hundreds of thousands of the finest Pansy plants. These are strong robust plants, grown in open field beds and being grown in sandy soil they have very strong roots. In fact our seedling stock equals what is often supplied as transplants and right now some are even showing buds. The varieties and strain quality is the very highest, many of our items being originated in our own gardens.

All the plants we send out are freshly dug, carefully wrapped in a special paper wrapper and Spagnum moss. They are shipped without soil in special constructed wood boxes—strong yet very light. Our long experience in plant shipping makes for the best possible delivery condition. **EARLY ORDERING IS ADVISED** as plants soon clean up during the late part of the season and our supply is not overly abundant.

250 OF A VARIETY AT THE 1,000 RATE

Less than 250 of a variety will be charged at the 100 price regardless of the quantity of the entire order. The 3,000 price may be applied to orders aggregating 3,000 or more, providing no item included in such an order is for less than 1,000 plants. The shipping weight of these plants will vary a good deal depending on the size at time of shipment as well as the condition of moisture in the soil at time of digging. For this reason it is not possible to quote a delivered price on them.

We recommend that all perishable material be sent by Railway Express and we will assume NO responsibility for freight shipments. Parcel Post may be used in the first four postal zones, although we will not assume responsibility for delivery of plants so sent. If post shipment is desired or necessary, **FULL POSTAGE MUST** accompany order or we will make the postage C. O. D. Express shipments travel second class, which is cheaper, and the charges can be paid upon delivery in the exact amount for weight of shipment.

HARROLD'S PANSY GARDENS

GRANTS PASS, OREGON.

VIOLA PLANTS

This group of stock is open field grown the same as our Harrold's Pedigreed strain Pansy plants and this results in the same fine plant with heavy roots. Only one size is available which is summer sown just as soon as newly harvested seeds are available. They are a nice size for transplanting and handled the same as Pansy plants they can be brought into nice flower for spring sales.

DELPHINIUM PLANTS

These plants were seeded early last spring and many of them bloomed late in the summer and during the fall. They are ideal for spring sale as all should bloom during the early season this next year.

VATTERLE & REINELT'S ORIGINAL PACIFIC GIANTS

Because of the fact that Delphinium seeds were virtually a crop failure this past summer, due to the excessive rains in the growing areas last winter, there is a very decided shortage of this stock this season. It will be most advisable that you fill your requirements as quickly as possible.

VARIETY	Price per 25	100	250

PACIFIC GIANTS MIXED.	1.25	4.00	10.00

Special Forcing Grade Delphinium

These are two year old clumps of the PACIFIC GIANT HYBRIDS. All are from the named kinds although they will only be supplied as a mixture. This is a remarkably fine stock for forcing for cut flowers. Our supply is limited to about 500 clumps.

PRICE

Ten for \$1.75 — Twenty-five for \$3.75.

PERENNIAL PLANTS

These are items which will prove of value during the next few months to meet the spring garden demand. We suggest these be obtained as early as possible and potted up or bedded in cold frames so as to be available when needed. Also as supplies of many kinds are short this year it will be well to protect your needs early.
